

THE EMPEROR'S NEW CLOTHES 2011

Open letter to my techie-buds in continued denial

by Brian Wright

... no matter who you are. But I especially want to address this short missive to my Old Paradigm peers in engineering and science professions, and libertarian friends from the world of technology who yet resist or deny exposure of the Big Lie that is the US government's (USG's) official conspiracy theory (OCT) of the attacks of 9/11/2001. Much is at stake; the people need you to firmly attest to objective reality, help shine the light to guide humanity in its dark hour of dire need.

Dear Esteemed Acquaintance:

In the past, I confess I've been too direct in asserting the overwhelming amount of evidence to the effect that the OCT is so absurd as to be, well, insulting. Those of you who still accept the OCT either 1) cite the few authorities, e.g. the Popular Mechanics apologia, who support it, 2) assert apriori assumptions—"No way my boy is a criminal."—, 3) disguise consideration of evidence with kneejerk denial of evidence (e.g.: "Hi-tech explosives and molten metal were not found at the World Trade Center (WTC)."), or 4) refuse to face the issue at all. None of these responses will stand up to the tsunami of discovery heading our way from thousands of dedicated-citizen truth-seekers. So why not join them now?

The OCT

What is the Official Conspiracy Theory? If by OCT one means a written statement by a USG agency identifying the causal chain of 9/11, there isn't one... by design, since nothing definite asserted means nothing definite disproved. For argument's sake, the OCT is:

On 9/11, 19 radical Muslim Arabs, under orders and operational control of Al Qaeda, an organization run by a former CIA employee undergoing kidney dialysis in a Pakistan cave, boarded four airplanes. Wielding boxcutters, these men hijacked the planes, then overcoming the world's most sophisticated air defense system, flew one plane into WTC 1, one into WTC 2, one into the Pentagon, and one (intended for the Capitol) into a field in western Pennsylvania.

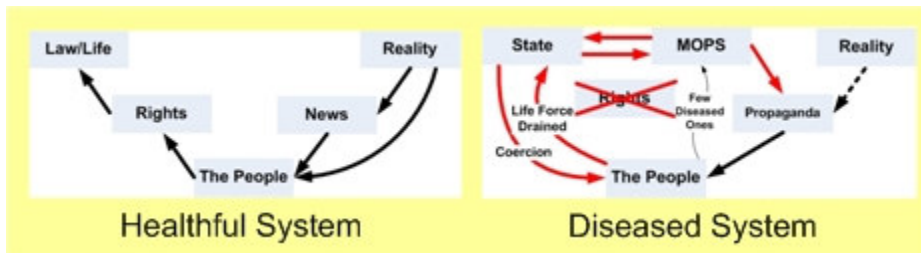

Pretty wild stuff. What makes the theory even more astounding is they came up with it, including the mug shots of the perps, within 48 hours of the event. I don't even get my dry cleaning back that fast! Let's not get bogged down here with hundreds of articles of evidence, any one of which logically demolishes the OCT. [This page of 911truth.org gives you the top 40.] Just let me say one thing: My mom undergoes hemodialysis three days a week at a local hospital; people on dialysis have a hard time making dinner much less coordinating complex military operations.

Meaningful Context

Often, I hear your apriori statement, "No way the USG would kill its own people." How about Iraq? War based on a lie: thousands of Americans dead, tens of thousands

wounded. [Plus, a government that will kill hundreds of thousands of foreign civilians without cause, do you really think it cares about killing your boys and girls?] Many of you have this "blind nationalist faith" (BNF) that our government "don't do bad." Consider the following diagrams.

The graph on the left corresponds to the founding of the country—an idealization—when we had thrown off the colonial yoke and established a system of equality of freedom for all people. Trouble was the colonial yoke consisted of a serious amount of Money Power behind the throne that the Revolution cut off cold turkey. These Men of the Power Sickness (MOPS)—just as today: central banksters and their corporate-welfare muthas—lost no time in subordinating the New World system (by exploiting the loophole that gives central governments coercive-monopoly power).

Jefferson and Adams warned strongly about the Money Power. Fast forward to 1913 and the watershed Federal Reserve Act, which establishes a central monopoly money and banking system run by... you guessed it, the banksters. Per the Golden Rule (he who has the gold makes the rules), the Fed and the federal 'income' tax centralize power and corrupt the entire life-positive system into a Death Star Barrier Cloud. That is the meaningful political and economic context in which the attacks of 9/11 occurred. Not "the USG is our hero-friend, and 'they' hate us for our freedom. "

Alternative Causality Theory (ACT)

In our case, the OCT has been contradicted decisively by mountains of evidence (best brief reference: Dr. David Ray Griffin's monograph: 9/11: Let's Get Empirical). Often when evidence refutes a proposition, that same evidence suggests a different proposition. With 9/11 most of the facts refuting the OCT point to complicity and culpability inside the modern omnistate apparatus:

Alternative Causality Theory (ACT): a rogue network serving the Anglo-American MOPS infiltrated and took over key USG functions to execute the attacks and destruction of 9/11. Motive: war/plunder. Means: best-ever military/state-security technology. Opportunity: fan Joe Sixpack's hatred of Muslims and Arabs thru shock-and-awe greater than Pearl Harbor, enhancing police-state- and mind-control of the people.

I submit, gentle reader, the ACT fits the facts while the OCT is a grim criminal farce. We need a real citizen-led investigation to determine exactly who orchestrated and participated in the 9/11 attacks, followed by prosecution of the killers.

Key Argument and Closing Admonition

WTC 1 and WTC 2 had 110 floors, 47 steel core columns/244 peripheral columns. WTC 7 had 47 floors, 25 core columns/58 peripheral columns. The fireproofed columns ran the entire height of the buildings. Consider WTC 7, which, at 5:20 p.m. that day,

progressively, vertically, symmetrically disintegrated into hundreds of 30-ft. column-sections and dust. Photographic evidence shows WTC 7 fell at free-fall speed, meaning w/o resistance of lower structure. As the Indian said to the Mermaid: "How?"

The only way for a length of column at the top to free fall straight down to the bottom is for lengths of column to be successively and instantaneously severed below it. That means precision use of explosives, that means controlled demolition, that means access and months of expensive preparation with cognizance of building management. [Same for WTC1/2.] WTC owner, Larry Silverstein, an eminent Zionist Jew, didn't hang with Al Qaeda; we have his "Pull it." video for those who remain unconvinced.

Admonition to my fence-sitting and denying friends: The OCT is clearly the Emperor's New Clothes in extremis. Do your own research to confirm the obvious: The Anglo-American finance patharchy is the prime suspect in the 9/11 attacks. Using 9/11 it has accelerated its police-state and military atrocities, "evincing a clear design to reduce us under absolute despotism." The 900-lb gorilla is in the living room, and freedom lovers need your help. As a minimum, bear witness by joining Architects and Engineers for 9/11 Truth and signing the petition.

If you wait, the Patharchy wins, and you can stick your thumb up your ass while platoons of all-American goose-stepping brownshirts march your family to the FEMA camp for reeducation. But if you climb on board the truth train, we win and the New Paradigm of freedom, peace, and abundance will assuredly be ours... after a short and possibly hairy transition period. :)
